General Smuts High School · 2017

PROFILE

SEO Specialist with 2 years' experience in SEO and digital marketing, combining technical SEO expertise, web development knowledge, and an analytical approach to organic growth. Experienced in improving site structure, content hierarchy, and on-page content through keyword research, search performance analysis, and continuous optimisation to strengthen visibility, user engagement, and organic performance. Has worked across diverse client portfolios spanning SaaS, finance, hospitality, construction, dental, and entertainment.

EXPERIENCE

Junior SEO Specialist – SYTE Digital Marketing Agency

January 2026–Present

- ▶ Drive on-page SEO improvements across client pages — optimising titles, meta descriptions, headings, and image alt text for target keywords.
- ▶ Execute technical SEO tasks including site audits, crawl issue resolution, broken link fixes, and redirect management using Screaming Frog and WebCEO.
- ▶ Perform keyword research and content SEO planning to identify and capitalise on organic growth opportunities.
- ▶ Report on organic performance and KPIs using Google Analytics (GA4), Search Console, and Looker Studio.
- ▶ Proofread and optimise team members' content for SEO alignment, readability, and E-E-A-T signals.
- ▶ Collaborate cross-functionally with content, development, and marketing teams to execute SEO strategy.
- ▶ Managed SEO activity across clients in NDT, tourism and hospitality, finance, food and beverage, SaaS, home furnishing, dental, construction, and entertainment.
- ▶ Optimised website architecture, content hierarchy, internal linking, and on-page elements to improve crawlability, relevance, and user experience.
- ▶ Applied search performance analysis and iterative testing to refine keyword targeting and improve page-level visibility.
- ▶ Worked within WordPress and Visual Studio Code to implement SEO recommendations and assist with front-end adjustments.
- ▶ Improved on-page optimisation scores across client pages from an average of 50–60% to 90%, through systematic optimisation of metadata, heading structure, keyword placement, and internal linking (measured via Rank Math).
- ▶ Enhanced blog content quality for a client account by strengthening topical authority, content structure, and E-E-A-T signals, contributing to improved keyword visibility and impressions in GSC.
- ▶ Increased the number of indexed pages across client sites by resolving broken links, removing erroneous noindex tags, and implementing and validating schema markup.

Digital Marketing Assistant – GammaTec

July 2025 – December 2025

- ▶ Executed SEO optimisations across product and service pages, implementing on-page best practices.
- ▶ Applied schema markup directly in code and validated structured data to support SERP visibility.
- ▶ Contributed to a full website rebuild — implementing page structure, URL hierarchy, and internal linking aligned with SEO best practices.
- ▶ Monitored digital campaign KPIs, lead tracking, and ROI, reporting via Google Analytics and Looker Studio.
- ▶ Improved SEO page health scores tracked and reported in Looker Studio.

Marketing Intern – GammaTec

July 2024 – June 2025

- ▶ Built and optimised SEO-friendly landing pages from scratch using HTML, CSS, and JavaScript.
- ▶ Conducted keyword research, content planning, and UTM implementation to track campaign performance.
- ▶ Managed social media content calendars and scheduled posts via Hootsuite and ClickUp.
- ▶ Updated product databases and optimised product data for search visibility.

- Supported reporting on digital performance metrics, aligning results with business objectives.
